ok letz say i made command !teleport halo2pac ...  
i know how to do a function on a text input but.... multiple words ... dont know ,,

see i can if Message == "!teleport"

but is it possible to do .... if Message == "!teleport" + "<name>"

or something like that ?

You will NOT get support here for Lua... It is not the support forum. You will get more help at DCOM's forums...
