I've been considering releasing the settings and custom PT icons I used to create my Sniper Only Map Packs so that other map makers could use them if they wanted to. Before I go through the trouble of writing up instructions and putting together a .zip file, I was wondering if anyone was interested in using them. So, is anyone interested or should I just keep them to myself? [February 17, 2003, 20:06: Message edited by: NeoSaber]

I've put together the .zip file and written some quick instructions. Hopefully the instructions are clear enough. It should be available for download shortly.
