i got a cd image of renegade form the link i saw oblivion post somewhere

after installing i added

-the lastest

-cp1&2

-renegade rensurrection

-rengaurd

when starting it i ot errors so one game.exe and game2.exe i right click and put the settings to make it compatible with xp sp2 (i got vista) and then started up but i got black screen after task manager closed it i saw a error message saying

u need windows xp,vista to run bhs.dll

any help?
