I dunno what server this is or whatever... but people could just be assuming that he cheated, but he didn't. I don't really know. But honestly, I was banned from Jelly for "Invincibility and Fly hacks", does that make it true? I don't even think that exists.

The 'Global Warming' effect is not very effective it seems.. just gets colder every year

(And, yes, I do know thats actually part of Global Warming, but it's not meant to be a serious comment, so don't start arguing about Global Warming again xD)

I just got back from church a while ago, it was surprisingly cold outside seeing as how it's been averaging in the 90's down here in GA.

Maybe it was the wind.

It means you used *cough*, they just didn't know what it was called.

I'll take it! It gets cold as hell here, often dipping into the teens, but it NEVER snows.

I'm in Canada and it's warm enough to be shingling! (seeing as that's what i did all day today).

I love the snow because I'm a snowboarder. The only down side is that we use a lot of road salt in Ontario so it destroys our cars.

On a side note: Of course scrin cheats... who the fuck didn't see that coming.

Isn't that the guy who spends his time playing eight-hour marathon games?

Maybe this'll kickstart a possible job-search.
