[View Forum Message](#) <> [Reply to Message](#)

my clan (OSTK) has found out (with proove) that 1 of our members was cought cheating on several servers now

i'm talking about a guy named OSTKfunky

because we absolutly not tolerate cheaters we kicked the guy out of the clan as soon as we found out he was using cheats

just to let all of you players know: if you catch OSTKfunky ingame you have to know 2 thinks

1. he is a cheater

2. he isn't in our clan anymore

that's it

i do not know if i'm in the right possition to give all the info

as i'm not the leader of the clan

all i can tell is what is told in the public section and that is that he was auto kicked for doing an insane amount of damage

[00:28] <zzbaddogz> [Biatch] [23/09/07 18:28:52] OSTKfunkY was auto cheater banned (Damage: 500.000000; Warhead: 3).
this should be enough though

Could you please direct the appropriate authority over here? Server owners like concrete proof.

I don't see what the problem here is. At least they were good enough to boot the guy out, and tell the community forums about it.

True, but wouldn't getting Scrin banned for cheating, racism be better?

I honestly agree with mexpirate.

It'd be good for people to post known cheaters so other servers would ban them. It'd be a good idea to make a whole forum for caught cheaters.

Just have every individual server ban him. BIATCH and RenGuard are an awesome one-two punch to cheaters chins, and he'll no doubt begin to wonder if cheating was worth it, if he doesn't have any good servers to play on.

As for his 'racism' , I've seen worse on these forums, and in games.

Plus, he's Russian, so he pretty much HAS to make noise for anyone to pay attention to him.

Yea, just like his country needs to kill a former KGB agent with Radioactive elements. And creating a shitty bomb called FOAB.

The "Server Owners" section deals with these sorts of things between server owners, there aren't that many posted out of there.

Not everyone can enter the server owners thread and its barely even noticeable at the bottom of the forum list.

I think it would be used more if it were to be made public. I know I wouldn't want to wait on Jellybe4n to get around to letting me in, especially since I've never seen him/her online or a single post.

Though whoever that is appears to be currently active.

O.o

That is a good thing, it bans people who make damage more than in actual renegade.
YAY!! People can't cheat anymore!!!

Ironic? He isnt the first OSTK cheater, I can remeber atleast 2 others. Anyone remeber OSTKfranz? Would join radom servers (including mine), shot everything up with FR, ruin a perfectly good game, the fucker was majically evading bans. Week later, uses a differnt names, joins random servers again, this time killing the turret guns on the AGT, again, totalling ruining the game, most of the time everyone just !vote gameover'd..
