I am looking for this skin. Cumdunt has the files uploaded (<http://forums.black-cell.net/index.php?topic=2595>) but when I download them, I get error messages. Does anyone know where I can get the files from?

I guess the whole thing then.

That sniper rifle is something to die for. Unfortunately, Renegade skins are all over the place these days.

That's one of Urimas's model replacements methinks. If not, I've definitely seen it somewhere..
