He said he was gonna quit renegade in 10 days, he was recently unbanned from cw.cc from again, cheat alligations, he's admitted to using IRC, and lots more things I won't get into, so I said why don't we play a few games before you leave on a different forum, I got his msn, added him, caught him on and told em, "c4u aow2":

Funny when troop is right, no one posts shit. But when someone says shit about him, everyone blindly jumps on the fucking bandwagon against him.

My 2 cents.

Know what else is funny? People who believe that beating someone in a 1 vs 1 AOW match proves skill...

Or losing a 1 vs 1 AOW match proves that you suck...

All it does is prove how stupid people are to actually set up such a match..

Yep, that basically describes everyone. But think about it, why wouldn't they if they have no clue about how to play or anything? They must. Im sure if you did search, you could find YEARS old topics I started about the TONS of shit I had on him, no one beleieve me and they just thought I legetimatly lost. Well, fucking finally I got everything I needed, and was winning against him even when he was cheating. Keep in mind, st0ne used to play for some good clans, and people considered him pretty high up on cw.cc, so for him to lose to me (on my bad day), even with cheats, now you see why he won't confess?

The kid is just a fucking disgrace period.And this all is why I say find 1 single example about me being wrong about a cheater, people bring st0ne up, let em talk now.

Can someone clarify what happened? Or what the hell this thread is about.. because I fail to see...

How was he cheating and how was he caught? ...All I see is that troop lost a retarded 1vs1 AOW match...

And for those of you who don't understand why I say "retarded" it is because such a match doesn't prove any sort of skill. All it is is a contest about who can destroy an empty enemy base faster... it is the most retarded thing in online Renegade...

Um, considering what I gather from this thread, your an idiot. And thats clarified when EVERYONE but YOU seems to know exactly what happened. Im guessing your new or just suck into the negatives (<-most likely because of the above quote).

Honestly, I don't know why this deserves to be in the "Hot Topics" forum.

I mean, who cares? Why not make a forum section titled "Petty little squabbles over who is better at a video game and or being a dick." I'm sure that'd get looooooads of threads.

Well, he does have like 300 carear wins? I don't see him playing against too many shitty clans, and I know for a fact he has botted for a TON of atleast decent clans. If they consider him OK enough to bot for em, I'd say they'd atleast consider him OK in general. Although, thinking back now, if thats how he played even with cheats.....

Well before I changed it, I used to get it constantly.

I didn't realize that it was because of the Scripts and the BHS.dll that I had downloaded. The reason why I had these problems was because my controls are unique, I don't use the default.

But now that I know what the cause of the problem was, I have fixed it, and those new Bhs.dll options in the menu make it much easier to do now.

No offense, but based on how easy it is to cheat, it's just stupid to even try and play. I mean, how long was stone cheating before he got caught? I mean, he didn't even really get "caught". He just moronically posted the pictures of himself cheating. 'bout the only way you generally can catch the people is if they do something as retarded as that. Also games aren't fun when half your team is running around with SBHs trying to steal tanks or see how many weapons they can get without ever actually attacking unless there's like 3 other teammates with him. No, don't help the lone soldier against the almost dead sniper, you might lose your weapons. That would be worse than death itself. Or better yet, who cares if the other guy killed the enemy, I'm an sbh so I'm entitled to taking the weapon.

Sometimes I would wish teamkill was on, lord knows it would teach people a little something.

I don't know about the "jacking off" part, all i did was respond to a post that somebody told me about. Whatever. You're a regular jokester Troop. I'll never forget the game you "won" on mesa against that guy even though ped beacon was turned off. Keep it up

Yours truly,
de7
