I dont know how to put commands on my server e.g. !renk !nextmap !poll skipmap/skip/kick player and other commads.

Also i want help to enable player to play the renguard sounds and do the actions. also letting renguard protect my server.

i have renguard CP1 & CP2

Click me.

^ That program is a bit old, but it still does it's function. I'm re-working it with a new, better programming language.
