Hello people , im a newbie at modding and ive just started recently. I have this C&C_Under.lvl file (Downloaded multiplayerlevels.zip from westwood ftp).. I opened it in Level Edit (by Jonwil) and added some things to it , edited PTs , etc .. now i want to make a MIX file out of it .. how do i go by it ?

Well , MIX is going to be shared by both server and client isnt it ? they are maps , not mods...are they ?

Well its going to be both sides , like both the client and server put it in their Westwood/Renegade/Data/ folder and the clients can play on the server , not requiring anything else

Go to File> Save As Mix (In Johnwils Level Edit).
