all the scripts are named cnc_c130drop

and when i try to put 2 in htye dont work is there a way to put more then one drop script in the data folder

---

You mean like have two cnc_c130drop files in your data folder? If yes, the no.
BUT! You can change the time interval of what you want to spawn. Then create another object later. That should do it.

Try reading the post next time. >.>

Why would a DropMod script be in Scripts.dll? :/
