I have tries extracting the music from the game before and it has not worked, I don't think you can extract the music.  Anyway, you can't put your own music in RA 1, just the ones after it EX: RA2, Renegade, Generals? So yeah in order to get the music from the game you have to beat the single player levels, each time you beat a level you get another song. SO go beat thoes levels, hope this info help.

Install a Legit version then

On westwood's FTP website: Ftp.westwood.com
You can find a few full size songs.

Oh but thats where you are wrong, you can change the music, you just need some mix extractors and some skill:

Well I was going to put a picture here, but I guess I don't know how to take a screen shot in RA.

I believe he was referring to a pirated copy of the game. Back in those days people would remove soundtracks from games to save of file space.

Its likely that a game that old still has those releases circulating.

Also not to mention if it was a legit copy then the music would be there, it's not like the cd burner at the factory missed some files on that one

I'm not allowed, unless Crimson let me give you the music to a game by a dead company.

Scores.mix is inside the main.mix file.
