Renegade is a role playing game.
You take on the role of a pre-made character named "Havoc"

The only thing that is wrong is the rating, which is probably just to get people to buy it. People seem to like buying M rated games over T.

Oh shame... I guess that means you better play 'Hello Kitty Island Adventure' for another six years.

Ratings are bullshit anyway. Age is no guarantee of maturity; just look at =AC=Smoke.
