How do I change the explosion of Havester in Objects.ddb  
So I do on my server as Ion cannon explosion see?

Sorry for my English, im German : (

Mfg

Attach a script to the harvester preset in Leveledit.

"JFW\_Blow\_Up\_On\_Death"

It takes one parameter and that's the "Explosion Preset"

Since you want it to blow up like an Ion Cannon, use "Explosion\_IonCannonBeacon"

Let them speak a little German.

Doesn't changing the explosion presets w3d and damage settings work? Mind you that would take longer.

P.S.

Maybe they like talking to each other in German? Considering there is a wide range of nationalities here, maybe it makes them feel more comfortable....
