AGT + 4 meds = dead stanks.

Stanks are n00by

They never work, they give the game to GDI.
Same with Mammies, they give the game to Nod.

Mobile arty controlling is pretty OP, but I liked to be the ramjet rifle, and snipe tanks as well as other inf.
But they've nerfed that on most servers now.

n00bstories gives you no points for your sniper shots.
Jelly server sniper does bad damage to Arty and other light vehicles and stuff.
Really a shame these servers screw with a game that had things so established : \

They fixed the points system. It was a flaw and they fixed it so people (like you!) won't buy a Ramjet and greedily snipe vehicles for points.

Exactly. You get 10 Points for shooting a slow moving, 2x3 Metre target with a rifle whose Bullets hit instantly and have unlimited range.

And does almost negligible damage.

Thanks to the pointsfix, stanks and mammoths DON'T automatically make the enemy win.

The most important word in that sentence is "thanks". It's not a shame, it's a huge improvement.
