Teamspeak is the best, it is the most used and user friendly, easy to set up, easy to use.

Vent, is less used, has too many options and is not user friendly.

Personally, Teamspeak. Vent you have to pay for servers and can't exactly run large ones off your home computer. Teamspeak you can run the server for 100 users and still be fine, and best of all, it's free!

I have both, but I hate ventrilo. Teamspeak has a way better interface.
