I feel kinda lazy not bothering to try it myself, but there has to be someone who knows this.. if you are animating a vehicle, is it possible to animate the worldbox aswell?

how would u animate the world box ? , world box makes it so u cant enter and exit vec and don't walk through it.

its a obbox

..... You animate it when you are animating the vehicle, moving the world box allows you to enter a vehicles. That is what I want to accomplish.
