The thing is, most of that is pure bullshit.

Furries don't crave sex with anthropomorphic animals, that's just shite.

Furries, like myself, are proud of who they are. To me, i'm nothing more of a fox. I'm smart, sly, and intellegent like a fox.

A fur, on the most basic level, is someone who is more connected to their animal side than the rest of you trolling bastards.

If you ever go to a furcon or furmeet you will find that furs are better people to be around than in a games con or similar meet that consists of hoomans. Furries are great people to be around. They're warm, cuddly and someone you can trust and talk to about anything you want.

Even though those videos don't really effect me because i know what furs do (since i am one) and every word said is complete bullshit, it effected me on a subconscious level to the point of me writing this in defence of us all.

Think what you want about us, but can you not keep it to yourself?

Okay, maybe I shouldn't have picked the anthropomorphic video.

But you're still sexually attracted to animals.

Fixed.

That's the thing you don't understand. Furry != bestiality/beastsex. Get that through your head please.

What is a furry?

EDIT: *after seeing some of the videos*

nvm i get it. They are weird people that wish they were humanoid animals.

Furrys are people that dress up as animals all the time. Big deal, if people think they are weird, then they should think goths, emos, preps, and other types of dress styles are weird.

I wouldn't mind seeing this furry walking down the street.

Dude, have you watched all of the videos?

You're compensating in a way because your brain knows having sex with animals is a nono.

Of course, you can keep denying it, but that's the way it is.

No, i didn't. After the first two i gave up and decided to make a post in my... Our defence against retards who can't be bothered to understand like you.

For the last time, i DO NOT, and WILL NOT perform in any sexual acts what-so-ever with animals. I am actually against doing that. The someone who i would like to have a personal, and sexual relationship with, is someone who is more connected to their animal side, inside, than other people. A furry, not an animal.

I think someone who keeps bringing up "sex with animals" the way you are is a bit obsessed, no?

Of course you won't, because you know it's wrong.

But you're still compensating. ^_^

Being sexually attracted to people dressed as animals is still fucked up. I don't care if they're people, they're not acting as people.

More in touch with your animal side than us "trolling bastards"? What the Hell does that even mean? Humans ARE animals, so to be in touch with one's animal side would be to act human.

We have a few Furrries at ITT-Tech....biggest bunch of losers I've ever seen.

Not to say that they all must be but these guys couldn't catch the clap in a French brothel. They wear animal ears and often noses with mesh shirts.

It's a new kind of ugly I tell you what.
