There weren't any posts deleted recently and I just ran a consistency checker... so you were probably on crack.

Before the backup I had 1199 because I was going to spam a topic with 1200th post. I come back an hour later and my post count has decreased. So like hmm?

C'mon guys...why be mean to Coveman. He has a point; I am sure this happened to me once in the very beginning when I came here. I had about 100 posts then and when I came back that same day, I only had around 80. I did not give it that much thought and dismissed it.

Now it happens to Coveman. So, this is not a joke.

Seriously, Elite Officer, you should try f***** yourself to keep yourself busy instead of laughing at someone else's problem.
