Hi, ii was jut wondering if its possible to have dif rets per weapon just like in halo.

like when you get in a tank you have default ret  
when you swap to pistol you get the The big circle ret  
when you swap to snipr you get the hunting ret

Is it possible?

Thx DpGc.

Changing reticles isn't though... Not without ugly hacks getting it to read more .dds files when you're in a vehicle.

Huh?

I don't plan on doing this... Nor do I know programming enough to do anything like that.

I'm a graphics designer, not a programmer.

It would be easier in vehicles, as you cannot attach scripts to weapons.

I'm pretty sure jonwil made a script for it (I requested it).

Edit: Or at least to change both parts of the recticle
