Hello again everyone,

Seems everytime I play the "new" map with the German sounding music I never finish because I crash to Renguard or the game just freezes and I have to turn off the computer.

Anyone else have or had this problem, and is there a cure?

Download Renegade Ex.

Start it and open the Map (I think it's Ruins0X)

browse and delete all INIs + the MP3

select CLOSE in Renegade Ex to re-build the map.

copy the altered Map into your DATA

start Renegade again and watch whats happening when the Server Rotation changes to this Map.
