What version of renegade are you using Stand-alone(original version) or TFD(The First Decade)?

It's in stores, well for the stand alone you need the 1.037 patch, but I would suggest reinstalling and follow these steps >

Yup, for future reference: the patch seems to stop at 99,99 % but it's actually installed then if u restart.

And quick match is broken indd.

Just hit cancel when it gets to the end, and it will actually install it It's a bit stupid but it works.
