I'm sick and fucking tired of neo-conservatism. It's nothing but a corrupt ideology that supports warmongering, corporate cock-sucking, and moral crusading idiots' quest for fat pockets by corporate kickbacks.

Now the neo-convict loving Faux News has taken their corrupt practices to a new level by censoring Ron Paul. I realize that political debates on TV are cut and edited to better fit time restraints, but to cut THIS particular clip out infuriates me. It just goes to show that neo-convicts can't take a little bit of criticism.

I am not surprised. It's the self-righteous Neo-Convicts again.

These Neo-Convicts are as dangerous as their cleverly brainwashed fans that wipe their ass everytime they shit.

What an idiotic question to ask him. Well fielded though.

I could never support the guy, but I do admire him quite a bit. Still, I'm pulling for McCain.

This is new news to you?

If Ron Paul had even a slight chance of winning he'd be assassinated, in fact, if that actually happens the White House is planning on assassinating him:

Yeah I have gotten sick of it. You can hear the commentator cackle in the background...its pretty stupid they keep putting up this facade of "fair and balanced" when they are nothing of the sort. I think its funny they have disregarded their own post debate text polls...Paul keeps winning them by double digits.

The eternal question, "war, what is it good for?" is answered in an ironic fashion by the neo-conservatives. That answer seems to be, "to prevent us from being attacked."
