What is the W3D APC file named plus all skin files for it?  
I have this:I do need tracks too.

#### File Attachments

1) [What is the names!.bmp](#), downloaded 200 times

open the materials thing on the left to see what the skin files are named.

as for the w3d. v\_nod\_apc.w3d something?  
hit [ctrl]+[F] in xcc mixer and search for \*apc\*.w3d

If you want the texture names; GrimmNL is right. All you need is the W3D to find out the texture names then you search for those with XCC mixer.

If it's the Red Alert:APB APC, I named the file "v\_al\_apc.w3d". The textures are named "v\_al\_apc1.tga", "v\_al\_apc2.tga" and "18\_medt\_trds.tga".

In Renegade; GDI's is "v\_gdi\_apc.w3d" and Nod's is "v\_nod\_apc.w3d".

Good luck!
