You type poor english for a pom...

Have you tried reinstalling?

Like I said, your english is very poor for a pom.

cpjok wrote on Wed, 16 January 2008 19:32ok i tryed to open Gmax/RenX to make some sign's
for my little map i am makeing and i got this ERROR

What do i do to get it working again ?
The problem areas are underlined

I would suggest visiting Turbosquid I think they have a support forum.

meh i just want to tell you that u got a virus
scan ur computer with an avast antivirus but dont delete anything because it could harm ur comp

my pc never had a virus and i know if it had a virus as ages ago i formatted it and put xp on every day as it kept getting virus's

it went like that when i turned pc of without crossing renX off

fuck off dick sucker
i'm realy good at comps
watch out because ur comp catches a virus from me
i could upload a thing to the renforums and u might download it and i could get the dataz u have
and send tons of viruses that ur comp willl go in flames and u will ass a litte fuckin bitch
i will laught when i will see u burning as hell
