Question 1:

If you knew a woman who was pregnant, who had 8 kids already, three who were deaf, two who were blind, one mentally retarded, and she had Syphilis, would you recommend that she have an abortion?

Read the next question before looking at the response for this one.

Question 2:

It is time to elect a new world leader, and only your vote counts. Here are the facts about the three candidates. Who would you vote for?

Candidate A

Associates with crooked politicians, and consults with astrologist. He's had two mistresses. He also chain smokes and drinks 8 to 10 martinis a day.

Candidate B

He was kicked out of office twice, sleeps until noon, used opium in college and drinks a quart of whiskey every evening.

Candidate C

Which of these candidates would be our choice?

Decide first... No peeking, then scroll down for the response.

Candidate A is Franklin D. Roosevelt .
Candidate B is Winston Churchill .
Candidate C is Adolph Hitler .

And, by the way, on your answer to the abortion question:

If you said YES, you just killed Beethoven.

Pretty interesting isn't it? Makes a person think before judging someone.

Wait till you see the end of this note! Keep reading.

Never be afraid to try something new.

Remember:

Amateurs...built the ark.

Professionals...built the Titanic

And Finally, can you imagine working for a company that has a little more Than 500 employees and has the following statistics:

Question 1:
Yes, I would recommend abortion.

1 Live < 9 Lives

Question 2:

Choice C.

I thought about it, cause I thought it was a trick, but after thinking about it, both of the other candidates had bad experiences in office. #3 was the only one with a positive look on office, I don't care about the other "qualities" he/she had.

But then again, it was kind of bias, because you are in a way forcing us to pick choice C.

I think the fact C was a fascist should've entered into his biography there.

Fascism is an authoritarian political ideology (generally tied to a mass movement) that considers individual subordinate to the interests of the state, party or society as a whole. Fascists seek to forge a type of national unity, usually based on (but not limited to) ethnic, cultural, racial, religious attributes. The key attribute is intolerance of others: other religions, languages, political views, economic systems, cultural practices, etc. Various scholars attribute different characteristics to fascism, but the following elements are usually seen as its integral parts: nationalism, statism, militarism, totalitarianism, anti-communism, corporatism, populism, collectivism, and opposition to political and economic liberalism.

Sounds like all those hipocrites in Congress to me.

Well, if it was someone like Hitler, I wouldn't mind. Because he wasn't a bad leader. In fact he was a very good leader.

Had he not been insane, he might of actually helped the world.

If Hitler was if fact insane as you believe, do you think todays advances in medicine would have made him even a better leader?

What do you mean?

And what do you mean "insane as I believe?"

The man killed millions of people because he didn't like their origin and opinions.

WHAT? U said Hitler wasn't a bad leader so if he took meds like I do wouldn't he be better for it , they tell me I'm better for it.

And second are you calling Truman insane also because he Nuked hundreds of thousands of innocent babies and women and old folks in Japania?

The key point is "for no reason"

There was a reason for bombing Japan. There wasn't a real reason for him to kill millions of people.

World War II was the most brutal war in history, I don't think Truman (or anyone else) was too keen on letting it continue.

And, they said that if the American army invaded Japan, that over 1.5 Million of our guys would die, just in the initial invasion.

The only thing in retrospect that makes it look worse, is the fact that Japan said they were going to surrender. However they where too late, and the bombs where dropped.

Even so, how where we supposed to know without them telling us?

Wasn't Adolf a male prostitute?

If so, how is that not cheating on his wife.

Acording to Discovery, he killed himself because his wife found out he was sleeping with other males, i think, my memory of that time is vague...

His wife hardly had two brain cells to rub together for warmth. Part of the reason that the marriage worked out so well for both parties involved. Hitler gains a mindless woman-possession, she gains fame, wealth and prestige. That said, I doubt she would care if she walked in on Adolf smoking pole.

I think the killing himself (Along with his wife) might have something to do with the fact that he...you know...lost World War II? And was about to be captured and tried by Soviet Russia after breaking a non-aggression pact with them and killed 20 million of their citizen-soldiers?

Can you blame the guy? I'd kill myself too, assuming I was stupid enough to get into that situation.
