Has anyone tried the command and conquer sole survivor mod for the game subspace?

If you have no idea what I am talking about do this:

-install

http://www.subspacedownloads.com/download.php?fid=1335

-When the game loads

Add the COmmand and Conquer Zone

There is no one ever there but it seems like a really nice mod.

Sole survivor was the worst game, they didnt include it in any CNC bundles because of it's poor
gameplay.

It's a shame people don't still play Sole Survivor. I finally managed to track down a (digital) copy a few months ago...
