Timed c4 = 30 seconds
Trigger c4 = You press the button
Proxy c4 = someone runs over it

Well... my brother and I tested it on a LAN-game... The timed-C4 does more damage as the triggered-C4... If I remember it right... the triggered-C4 did 92 damage... but the timed-C4 did 300 damage... I could be mistaken about the numbers, but the difference was F*CKING big

I think timed c4 and remote should do more damage because it is C4. Proxy shouldn't be as much cuz all you do is lay it and forget it.

Timed C4 does 400 HP of damage on a tank or MCTRemote C4 does 200 HP of damage on a tank or MCTProximity mines do different amounts of damage depending on how close you are to them when they detonateBuildings each have 1000 HP, so you need 2 timed and 1 remote mine to take it out.

Btw bar death by bonking responce... Ild like to say that the forums have got a lot more friendly nowadays. Poeple dont like new players that ask sometimes silly questions(not meaning this post as it is old)... for somereason and tend to flame them or call them n00B's I think this contributes to the fact of renegade dying out. Anyway just saying these forums seem quite friendly now
