I Installed my Renegade FDS + A bot and modded much of the renegade maps to sniper maps.

But my internet speed is not good enough.

So its very laggy when more than 8 players joined my server.

and my router don't allow much people into my server.

So i need someone with a server box to host my server.

Is here anyone who want to host my server for freeeee ?

Renting servers easely costs 80-100 + € per month. Hence, noone will do it for free.
