A friend who's pro at modding cant compile his scripts heres the error hes getting

1>dllmain.obj : error LNK2019: unresolved external symbol "int __cdecl
__CxxSetUnhandledExceptionFilter(void)" (?__CxxSetUnhandledExceptionFilter@@YAHXZ)
referenced in function _NotifyHookUnhandledExceptionFilter
1>scripts.dll : fatal error LNK1120: 1 unresolved externals

Find: #if (_MSC_VER == 1400)
Replace with: #if (_MSC_VER >= 1400)

There should be 2 occurrences, both in engine_common.cpp

New problem.....

we using a vet system i think it was released on here well anyways the problem is

when we do the !veh command for the highest rank we do get the tank....but if it is the enemy's
tank it counts against there limit...how is this fixable?

Use the single player tank presets that do not count for the vehichle limit.

my friend  told me that he whould like a better vet system since he says it wont compile i said no
send me the code and the error and ill post here to find out why it wont work i dont have the cod
tell later but this the error hes getting when trying to complile

Quote:
error C2220: warning treated as error - no 'object' file generated

any ideas please?

That could be caused by allot of different reasons.
Tell your lazy ass friend to sign up here, post his code and ask himself

hes kinda weird idk why he dont but dont matter the point is one persons asking for an answer
soon as i can ill post the code when i get home here
