Tonight I was getting a friend set up for renegade. After awhile I noticed he was banned for "evasion" by ChewML.

He hasn't even played renegade that I know of. I have our PM's from your irc to kind of prove he didn't even know how to set up ren. Let alone hax.

Can you check into this...seems either an abused serial, or a mistaken bot to me.

Here's the attached irc logs of the channel n00bsvr1 and our convo beforehand.

We don't know why you're banned either, try the server's forums?

I wasn't banned, and this is the proper forum, it was on n00bstories AOW. Notice his ip is different than mine. I live a city away from Akupyro + I use cable, he has DSL.

<edit> I see what you mean about the wrong forum. Can someone move this then?
