I'll bet she's so excited to meet you that she's already tugged, and ejaculated into five pairs of tube socks.

Are you old enough to not hug a 50 year old petifile that may answer the door? If so then go for it. Enjoy life and try stupid crap. You might meet someone you really like or you might have a good chat with someone. You're really not at a loss

@Cee100 daddy like. The biggest problems with the female counterpart is the lack of everything basic in life. I swear to god if I have to make another girl watch Back to the Future for the first time...

Oblivion's checklist:

[] seen the great three Trilogies (BTTF, Indiana Jones and original Star Wars.)

[] in college or graduate.

[] at least basic computer skills.

[] can argue.

[] NO ANIME

Now if I can just get a girl to not run from me.

The perfect girl for me is plain, intelligent and flawed. I would prefer the geek over any of those Barbie girls.

Obliv likes to be comfortable. I would like to have someone that is on my same level so that I can actually enjoy a conversation. I don't want to worry about if she is boning the guy at Bi-lo or the UPS guy.

I guess I just want to be able to sit around on the couch and watch Lost with someone that enjoys it as much as I do.

It basically means, while you enjoy switching relationships every week and overall leading a shitty life, Oblivion will have a happy life and might actually like the chick he's with.
