Ok, you're not being specific. It's like saying "I made a mod... it doesn't work, why?"

What is the script? Did you try compiling and stuff?

I had same problem. And it is caused by your Renegade. LE using scripts.dll from ren dir. So I think something in registry you must edit.

You made a "scripts" folder in the mod directory, right?

Yup i put in Scripts.dll , Scripts2.dll and BHS.dll.
Then i tried just with Scripts.dll.

Nothing Works

Scripts without Compiling XD
People do stupid things.

I'm not sure what you are trying to do, make your own script?
Did you add the script registrant? Even if it compiles, it still won't show without one.
