I don't know why muslim extremists got so excited about something they haven't even seen yet. It's out now.

Huge letdown, it's not even close to as controversial as everyone wanted to believe. Our government and media made more about it then it really was/is.

That's the main problem about the media hyping things up. The only reason why terrorism got that big is because of the media.

Hence why sources like: Internet, TV, and whatnot can be used as an effective weapon. Control the media control, control the mind.

As for the movie, nothing that I didn't know about and he should have done the talking if he is such a great politician. Instead of making a movie which anyone could make with Windows movie maker.

He does a lot of talking as well... Mostly nonsense.

But about the hyping terrorism you are right. People are horribly overreacting when talking about terrorism.

Movie is a joke, as expected... Wilders is a joke, I find it shocking that he gets more than one vote tbh.
