Copy it down here is the foreign language and we'll just pop it into a translating program online. Either that or someone nice translates it more accurately by themselves.

Make all layers of the water use the "Screen" blend mod, and use emmissive lighting and set all the other lighting settings on it to black.

Dthdealer wrote on Fri, 28 March 2008 10:52and we'll just pop it into a translating program online. Alomst all online translators are crap. The would spit out very broken English.

However, he got it.
