You should seriously think about YouTubeing' this stuff.. I don't really want to download 377mb of video, because it *might* be good.

tbh i like megaupload more then rapidshare due to no 1 download per hour limit. And i always get nice speeds so no complaints.

Adding Alpha channel etc doesnt work, the Door turns into Black, i think i need to open the W3D and change there the skin to DXT5

If it turns black you're not doing it right. Check the channel settings (white is seen, black is see though) and re-export.
