I am unsure

Ganon looks like complete crap though. I believe they are following sort of the OOT story line

(almost).

It doesn't look "bad" but odds are against it that it is fake. I mean trailer launched on April first, and expected release NEXT April first?

I have to vote real, but being released on April first of next year disturbs me, I hope its real though, I also hope they don't ruin it. Who knows, the April fools might be that its supposed to make you think its an April fools.

Good effort, but their CG sucked ass. Also, way to misspell the topic's title.

I thought the CG looked good, and that is what made me think it was real.

Ganon, however, is obviously not CG and is some dude in a costume. (If that is what you were referring to)

Agreed, that costume is horrible.
