A nice tutorial explaining everthing you need ->  
<http://www.renhelp.net/index.php?mod=Tutorials&action=view&id=16>

(from oblivion)

Read it on renhelp best way to learn the basics

Lol, he means he has been using that tutorial, and he is stuck.

---

Okay Alexis, make sure that the car object thingy is rotated to be facing the exit of the weapons factory, make sure that it is not stuck in the floor. Also make sure that it is in the build zone and has waypaths that exit straight out from that zone, then turn to different directions once they are a reasonable distance away from the weapons factory.

If that did not help you, check and see if the harvester has adiquit wall clearence, and if thats not it make sure that its the build vehicle zone place in the weapons factory, because if its a tib zone... lol.

Hope that helps!

nope its still being gay ffs im gunna upload some screenshots, heres the links for them  
<http://img145.imageshack.us/img145/8802/noobfb6.png>,  
<http://img508.imageshack.us/img508/4482/newbvc1.png>,  
<http://img337.imageshack.us/img337/9968/n00byx2.png> i really need help with this. Hopefully with the screenies the experts who know this stuff like basics will be able to spot like 5 things wrong straight away LolxD. Do u need to do GDI and NOD ref and wf setup for it 2 work?? also ive double clicked on a node of all the Waypaths and Made it two way, Inate pathfinding and unticked human il give a ss just to confirm it is that good i mean for all of them including air to tib field and Ref to tib field really hope i get this problem fixed thanks =)))
