TDA_stealth_Armor is a script that makes you stealth when you pick up a powerup with the script attached to it.

I think you could try POW_Tiberium_Shield
I dont know if its working.
But its a try.
Here are some other PowerUps

File Attachments

thanks for trying to help but, these are just empty, effectiveless Renegade presets which don't

---

have any effect.

aren't there any scripts which enable abilities when you obtain the powerups?

all the powerups do nothing untill you attach a script to it and look in the list of powerups and see what you can do

if you want the tib shield make you not be able to get hurt in tib i think theres a script that makes it so you can change your charecters skin and you should choose tib skin? or somthing like that and that should work

Also, to get pretty much any powerup working, they need to do something other than just give you that powerup. Something like giving you max armor/health, healing armor/health, giving a weapon, etc...

That's not true, you can just do "Set_Powerup_Always_Allow_Grant(obj,boolean);"

I know all this already, what I was wondering was: what powerup scripts are there?
