oopps i meant GunnerGunnerMobius (although i use patch more
)-----ok Nod nowRaveshaw (my personal ALL-AROUND
Favorite)MendozaSakura/Mendoza/Black Hand Elite's/and RaveshawStealth Tank/Flame
TankStealth Tank/Flame Tank/Light TankStealth Tank/Flame Tank/Buggy/APChope this helps if
you wanna play on WOL my name is Havocc816 and my game's name is either Renegade! or
Havocc816

I like stealth black hand against most of those units. I can place C4 on tanks, then it blows, an engineer will pop out for repairs, then you steal the tank.You can also just go Pistol and pop the engineer in the head a few times then steal his tank.Stealth Black Hand has decent range, decent damage to light vehicles, and you can run and hide.I don't like direct attacks with units.
