Since there are so many female sounding nicknames in game, I'm asking:

Who is a real Renegade- addicted girl, like myself?

Because there sure are a lot of doubters all over the place, I can confirm that xxlenore1 is what she says to be

She is my girlfriend, hehe *g*

We are playing most nights together and asking us, who is behind a lot of names. Some a sounding a little bit female: shekills, honey, possum....

Most are just guys pretending to be girls to trick guys for some reason.

I know Crimson, And a few other people at xphaze are girls so yeah, a few do play, but most girl nicknames are really dudes.

In my experience, a Girl who posts pictures of themselves on a gaming forum is either:

- A) An attention-whore.
- B) A dude who gets off on cybering with guys who think he is a chick.

This has been a public service announcement

And her account and post are from your IP address. I detect the "post a pic of a chick and claim its your GF" scam

May be in the great USA.

well, is it so difficult to imagine, that some people are real?

You can see postings of Griever too in the picture section of the noobstories forum (n00bparty-pics).

Of course are they from one IP adress, because we live together and share one internetconnection with a router, you great sherlock holmes. And of course I play every night simultanous with two computers and two accounts. LOL

We dont have the need for attention, but because of people screaming "fake" all the time we thought it is necessary to post a picture. May be, some people needs this in young ages, but with 32 years I have real other problems then faking an account.

You can have pictures from her with our local newspaper or something else to stop the fake-screamings. lol.

I' m just asking out of personal interest. Is that so weird? When you play via internet with others for a longer period of time, you get curious.

I remember playing with MissSnipe a few years ago and she was one of the first girls I met in Renegade. As far as I know she is registered on EKT now.

The next girl I remember was the one from the "post your picture"-Thread on this forums. I forgot her name...

Then there is Serenity from RenWarz and some from Germany I met in the past. On Unrules, there is Di-Joanne[UN] (or similar) who seems to be a girl.

All women are welcome to sign in on my Frappr map! If you are already registered, feel free to spread the link all over the Renegade Universe.

I'm wondering who Honey is. Rather sure she is a girl, but i never saw her talking while she was in game at the n00bstories server.

o0sarah0o. Saw her today on n00bstories. She left pissed after her med died cause i blocked her at Mesa. Wasn't my fault that a MRLS rammed my med back to GDI tunnel entrance when he was low on health (MRLS HP).

And someone on Gamerz0ne: SizzlingsinisterWork. Asian girl who also plays renegade. She changed her Ren name though.

I'm trying to remember the names of two girls I used to play with YEARS ago, but both the names escape me. Either way, due to their personality, you could most definately tell that they were both actual females.

One was tterbo aka _____. The other was something in the format of AbcDefGhi. Me and a guy hummer13 used to play my Late-Night Duels in Duel_arena with her, and she'd end up cheating and getting pissed when I'd accuse her of such lol. Strange 3 letter combinations come to mind, like Nos or Boo or some strange shit like that, but I can't remember her name lol...

Well, there is definitely girls who play Renegade.

I remember some names. But most of them were occupied, or from what I can remember, some even met each other via Renegade. I'm sure this happens a lot more often than some people think. Not just Renegade but a lot of games.
Though there is also a lot of people pretending with nicks, it's an online game after all.

I stand by my statements, and if you are 32 years old you should certainly know by now that any female who posts their picture online, especially a gaming site, is going to be flooded with messages of either "omg ur hot can we fux", or "lol nice fake pic u fag", so why do it?

I fail to see how posting a pic of a girl dressed like she is in the Matrix or Underwold in any way proves that she is the "girl" behind her online nick, or even you posting afterwards saying "she is my GF" proves that she is your GF for that matter.

Again, I believe if you are 32 years old as you say, you should already know that most people don't believe most peoples identity, because so many people have scammed folks in the past. Nobody can even begin to count how many times someone has posted some random pic of a girl and claimed it to be themselves or their GF.

Its not your fault, and you should take offense at it either, it's just the nature of the internet. Hell, there are people that to this day don't beleive or know that Crimson is a girl, except the folks that have met her in person. Do you see me posting pics of her and saying "she is my GF"? No, because I know not to bother, and she or I could really care less what people most people think.

@Blazer:

Well, I see, the US forums are the hell of a lot more different then the european forums.

I'm moderator of the renegade-section in the (or one of the) biggest german forums:
<http://www.united-forum.de/>

There it is usual for many people, to post also private stuff, have user account pictures in or other.

We have there also some problems with "difficult guys", but in general I think, people are more adultly here.

I've seen a few moderately intelligent women on games who aren't attention whores. However, because they're not attention whores, they don't go all "LOL I R GIRL HEAR MAI VAGINA RAOR!1".

Instead, they just play like everyone else, because they're intelligent enough not to demand they be treated like a goddess.

i know of atleast 10 female players that i have interacted with while playing ren.... im sure there are lots more those are just the ones i knew were infact women. i mean you still see nicks that have "girl, or gurl" or something that indicates they should be female.

saying should because a few years back there was this dude on UNrules that was disguising himself as a woman, he had everyone fooled that he was a woman till one day he asked for help with a mic on ts. and the people that were helping him figured out he was trying to make a voice changer work with teamspeak so he would sound like a woman aswell....
