I typed in my username and password and it showed me a "MESSAGE OF THE DAY" then it asked me where my location was and then a sceen popped up and it said "CONNECTING TO QUICK MATCH" and I waited a little while and it said "OPERATION TIMED OUT" and I waited somemore and it said "CHANNEL LIST RECIEVED SUCCESSFULLY" and then the screen never changed to anything....It's not frozen or anything because I can click on a Button that says "BACK" and it works...It just stays on the same screen that says
"CONNECTING TO QUICK MATCH"
"OPERATION TIMED OUT"
"CHANNEL LIST RECIEVED SUCCESSFULLY"..

CAN SOMEONE PLEASE HELP ME FIX THIS!!!!!!!

QuickMatch does not work, please use the "Advanced Game Listings"

May I politely suggest not using all caps? It might get you banned from servers after about 20 minutes of "LOL" being spammed in public chat.

You're welcome.
