Ok I just finished the game, but I don't think I explored everything in the game...I need some help on what I missed.1) What happened to Sakura? After she broadcasts from inside the temple of NOD I never saw her again. Is this what happens or did I miss something?2) I've seen screenshots of SETH inclosed in a capsule but I never found where he was. Where is SETH located?3) The rock with the ancient text and the illustration of KANE stabbing someone. Where is it? Is it in the underground caverns where you have to go through in order to get to where Sydney is? Can anyone help me. I'd appreciate it

Answers in the order that your questions came in:1) Dunno... She's a free agent, but we'll probably see her again sometime 2) Not far from the main rooms down below the big upper control room that's split in half. Just look around some and you'll find it. hehehe...3) Yep. In the tunnels. Poke around there and you'll find it easily. I had trouble catching what was said about it due to the sound and didn't think much about it then, but it's very significant. Check the main forum discussion for some interesting speculation on it, it seems to be the final link in the C&C storyline... That, and the pictures of the Kremlin.

GRRhgh Do you mean the main control room that had all those Templars in it? The one with the revolving door?Also is that anecient relic thingy with KANE some sort of code or secret to unlock something in the game? Read some of the forums about it being an easter egg or something... You know what it is?
