I haven't been around here for awhile, so I decided to stop by and see what was up. I get here, and there are threads about words spelled backwards, people talking about avatars, and pac man. Am I missing something? wtf is going on?

The arrow is back! (under the banner, to the right of "Renegade Public Forums)

Other than that... I don't know.

The almighty arrow has spoken with me.

The almighty arrow has reassured me that there is, indeed, a Westwood developer on this message board.

Does it?

Jeep, look at (one of) the first topic(s) about the arrow. It contains some history lesson that might be helpful...

It's something historical that about 10 people on this entire forum understood. It is supposed to give a sense of mystery but to be honest no one could ever properly cover up Tiberium Pacman, it's just not feasible. I also know something that no one else has realized too however and I will tell you since I'm nice. This forum has secret sponsorship from Audi and one of the cars Audi makes is the TT. The arrows show how TURBO FAST these cars go. Quite clever how they blended both a car advert and Tiberium Pacman into only 9 symbols.

Hey.

It's JeepRubi.

This account still works.

I am amused.

Holy crap, I have a ton of posts here. I should find and resurrect the first threat I ever made (if I can find it).

Hey, it does exist. I still remember getting yelled at for spamming (fucking n00b):

Man, the edit function rocks.

Anyone I should know still left around?
