The other day: I was in Kamuix teamed DM owning and this guy is whining about what a hacker I am and does a vote to reset the map.

It passes of course because there are three GDI, to our two Nod despite us winning.

The next map up is hourglass and it's currently so broken that all you do is fall through the floor in an endless cycle.

Way to go whiners!

lol I say the funniest thing so far for me was on a marathon server and it was just me and my flamer left and another buggy and when we started to take hits, the enggies all rushed to repair the buggy. Even though we were right next to each other. So my tank died and we lost the game, we would have won if they wernet so stupid.

If that qualifies as a funny Renegade Moment, I guess everyone's had their fair share of it.

I have had many funny moments in Renegade. My definition of a funny moment in-game is when what you see and what you do makes you LOL hard like hell at your monitor.

If that's the case, then my funniest one would be on Islands as Nod. GDI had only Ref left and 1 Med and 2 Mammoths. Base was well mined but I managed to creep in as SBH. Both Mammoths were being repaired (lol)...I came and hijacked one, killed the other repairing driver with missiles and blew it up. Then I killed the Med and I got destroyed as well. LOL...I was laughing so hard I thought I was going to get a heart attack.

My monitor screen was full of spittle after the deed LOLS.

EDIT: Doesn't sound so funny and interesting in words.
