in support.

<http://www.commandandconquer.com/intel/default.aspx?id=164#NewsMain>

maybe there is hope.

Isn't this the second time they admit it?
I think it is.

"We're sorry, please accept our apologies. We'll pretend to try to improve our follow-on support without addressing the root of the problem, which is to say that we'll keep right on releasing games before they're finished. We really are sorry, you know. Did we mention that we're sorry?"

Epic fail. Bonus failpoints for having a shitty news page that won't even display text with noscript enabled.
