Your forum name rings a bell and usually that's a bad sign.

I loved my old name way back when until the BS that was XWIS came around. My computer had a brain seizure while playing Rene and rebooted on me. When I tried to log back in it said my screen name was already in use and never changed. XWIS wouldn't bother to fix it. I hate Rengaurd and XWIS for the crap they give me, but oh well... I'm under CrateGod now. Thank you XWIS!!1/sarcasm

Crimson is right!

Once i was installing a mod for Zero hour and i tried to make it work but it didnt. What ever i did, it didnt work. Then i said "Please god, make it work, please." and then when i ran Zero hour, the mod worked. I was shoked. Well, that is true, but it wont work some times.

Well it can be, but xwis just says it cant because they say they dont have the time to undelete all the nicks people would want. What crimson is hinting at is the fact that she has access and the ability to take of the renegade players in this situation so no need to get xwis (namely olaf and that other women) involved.
