I've gone back to using Leveledit a bit now, but I can't get Leveledit to load the scripts. I am running Jonwil's leveledit. I have tried adding a scripts folder to the mod directory but still no luck. :/

Any help would be appreciated.

`Zack

EDIT: Fixed. Stupid Leveledit. Had to reinstalled.

use the scripts.dll from your BIN folder! (in the source folder)

Bin -> debug -> Scripts.dll
