I need such a boned knife too!

Long time ago I made a small map (C&C\_DM\_Suntemple) with knives and this map is still a beta. All I need is such boned knife for final! I tried to bone the CS1.5 Knife but wasn't able to make a good slash-animation or a good handpos. In addition I had several other smaller problems.

If nobody wants to bone a knife we have to wait for the new Reborn version. Then we can ask the team if we could use&modify their knives for our purpose.
