I was wondering can someone make me a E11 balster rifle from Star wars. I would love to replace the Automatic rifle with this.

Also can I get the tracers to look like blaster bolts. Thanks.

I heard that it died, but where can I find that mod. Even if it is unfinished?

You can find a old version of the Star Wars mod on Game-Maps.NET, but there is a newer version somewhere that is playable but not complete, wish I had it.

As long as it contains the E11 I would be satisfied, does anybody know where the newer one is?
