Sourcecode can be found here: <http://www.multiplayerforums.com/index.php?showtopic=5040>
<http://www.game-maps.net/staff/zunnie/hostagemode/>

The soundfiles used by the script, players should place these in their data folder to be able to hear "Hostage recued" sounds etc.

<http://ren.game-maps.net/index.php?act=view&id=1256>

The DLL files that people can use in Leveledit:

<http://ren.game-maps.net/index.php?act=view&id=1254>

The Server files for SSGM 2.0.2 with hostage mode scripts added

<http://ren.game-maps.net/index.php?act=view&id=1255>

z_Hostage (To be sticked on objects that are the hostage)

z_Hostage_Controller (To be sticked on an APC for example)

z_Hostage_Rescue_Zone (To be sticked on a Script_Zone_All)

Have fun!

Here is an example map for leveledit to look at how the scripts should be used:

http://www.game-maps.net/staff/zunnie/hostagemode/ExampleHostageMode_M00Tutorial.zip

http://www.game-maps.net/staff/zunnie/hostagemode/M01_HostageMode_SourceFiles.rar

another hostage map example M01:

edit: To load the map in your leveleditor copy the M01.ddb to your presets folder and rename it to temps20.ddb

If you played CSS, you can rescue bots.

They work by you poking the bot, they now follow you, you move towards a APC or a other object you desire and they jump in or whatever, a sound is played.

I'm setting up a testmap for this in case anyone wants to try it out sometime. I'm still working on the map as i type this but the server on XWIS has nickname Coop250, map is M00_Tutorial.mix, Serverip is: 84.104.205.243:4848

Its going up and down at the moment because im updating the map but in case anyone wants to try it out...

Dont forget to dump the soundfiles in your renegade data folder or you wont be able to hear the sounds.

Finished the map M01 just now.
Source files for Leveledit are included so you can have a look how stuff is done.

Added a little tutorial on how to use this script on your map.
The script was added to scripts 4.0 by Saberhawk earlier so when
scripts 4.0 is released you can use the script on your map if you like

Are you using standard or Jonwils editor?
If you use standard editor you place them in /scripts/ folder in your moddir else put them in your renegade folder.

its alrdy on there.....

my brenbot is not connecting to the server and ssgm is not loading on the server for some reason
idk

Edit:OK so i figured out that the patch was not on the server so i put it on there the server is up
and running now,i'm working on m13 and i noticed that the bots in m01 is not working right..
